

# CHILD SAFE PROGRAM

Prescott  
College  
Southern

Seventh-day Adventist Schools South Australia have made child safety a priority in its response to National Principles for Child Safe Organisations.

## Why Does It Matter?

There are six public facing documents on this website sharing **Child Safe Responsibilities and Expectations** across our school communities. There is an overarching **Child Safe Policy** driving the other processes and procedures in our schools.

## Helpful Documents

Within these documents, you will find:

- Codes of Conduct and Professional Boundaries for adults and staff
- Code of Conduct for Students

These documents place the best interest of the children and young people first and provide the platform for any member of the school community to respond to and report a child safe incident or concern. It also provides guidance on how to manage child safe complaints.

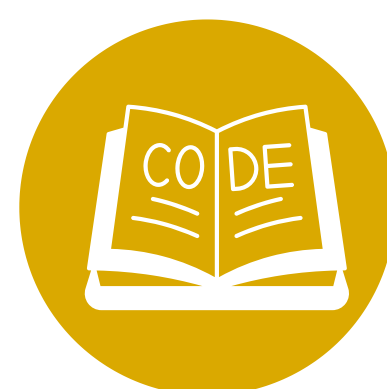

Child Safe Policy

Student Code of Conduct

Professional Boundaries of Staff

Adult Code of Conduct

Reporting Incidents and Concerns

Complaints Management

With these six public facing documents the school community will know what is appropriate and acceptable in relation to child safe matters.
